Magento Front End Developer  
Certification  
Prometric, License #3501363  
<http://u.magento.com/certification/directory/dev/2459681>  
▶ Nov. 2016 - Present

## Lead Frontend Engineer

**ENVOY** | 34 Tesla, Irvine, CA 92618 | [www.weareenvoy.com](http://www.weareenvoy.com)

*Feb. 2014 - Present*

- ▶ Demonstrated ability to work effectively within a fast-moving, short deadline environment with high-profile clients such as VIZIO, Billabong, Elo Touchscreen Solutions, and McDonald's.
- ▶ Used ReactJS with Redux to manage application state with GSAP and/or PIXI.js for interactive functional art experiences.
- ▶ Pioneered standards for frontend build systems utilizing Gulp, modular SCSS (BEM), autoprefixer, jshint, livereload, Nunjucks templating, ES2016+ transpiling with Babel, and custom component-based systems.
- ▶ Collaborated with in-house teams of creative directors, producers, and designers to bring designs to life within E-Commerce, marketing websites, and SPAs.

*\* Promoted from "Frontend Developer" to "Lead Frontend Engineer" on March 2016.*

## Software Engineer

**Spot411 Technologies, Inc.** | Orange, CA | [www.tvplus.com](http://www.tvplus.com)

*Jun. 2013 - Feb. 2014*

- ▶ Used AngularJS to create websocket-enabled web apps for second-screen TV experiences.

## Lead Web Developer & Designer

**Civica Software** | Newport Beach, CA | [civicasoft.com](http://civicasoft.com)

*Jun. 2011 - Jun. 2013*

- ▶ Designed and implemented websites under a proprietary CMS for city departments and related agencies in California and across the United States.

*\* Promoted from "Web Designer & Developer" to "Lead Web Developer & Designer" on January 2013.*

## Academic Computer Technical Assistant II

**Fletcher Jones Computer Center** | Redlands, CA

*(Part-time) Aug. 2007 - Apr. 2011*

- ▶ Awarded **Student Employee of the Year 2010** for outstanding work ethic and attitude.

## Summer Research Project in Computer Science

**University of Redlands** | Redlands, CA

*(Summer Research) Summer 2010*

- ▶ Researched formulation and implementation of an interactive multimedia space, driven by motion sensors (Make Controller Kit) that manipulate various rich media content (vector graphics, raster images, text, etc.) on the screen. ActionScript 3.0, PHP, MySQL.

# EDU
